

A
21st century
education
CREDO

Thou shall not be taught in
classrooms anymore, but by
the reality around you

Working with Europe 2018

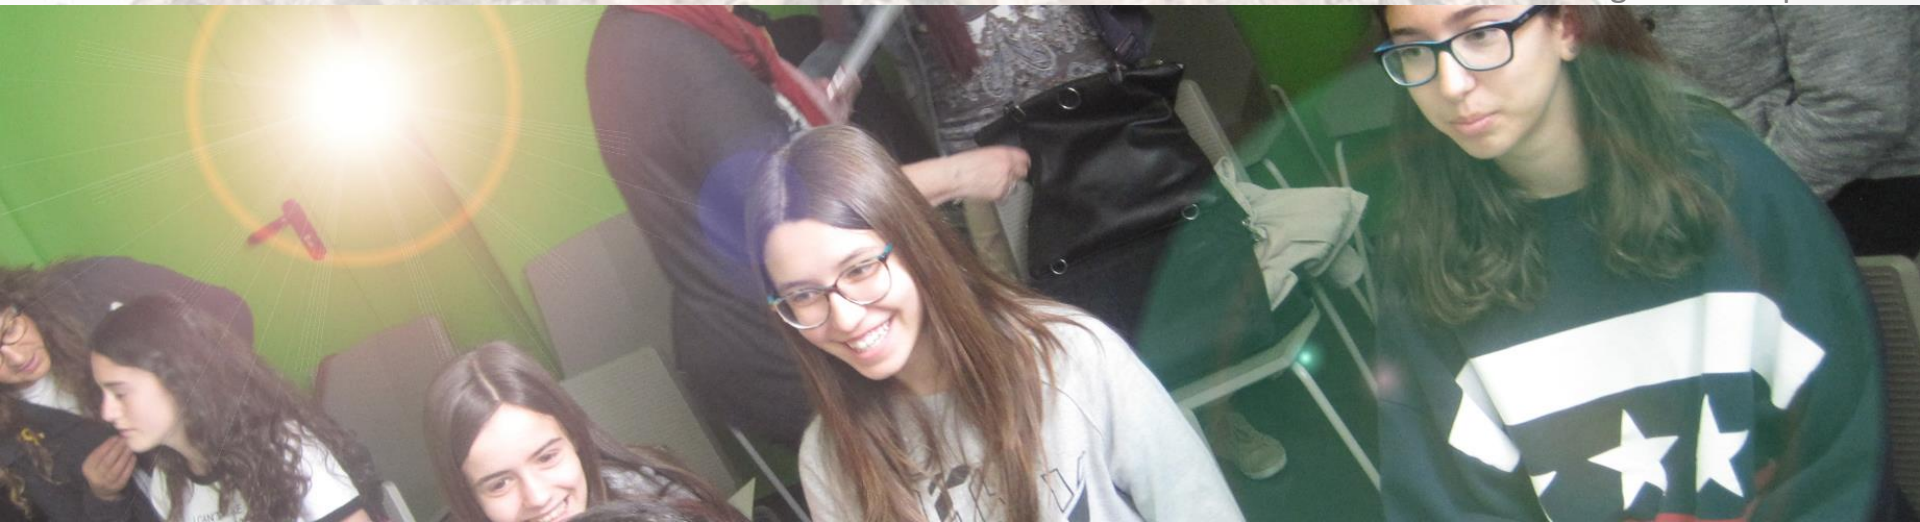

Thou shall not create short-term remembering, but solid capacity integrated in your lasting mental world

Working with Europe 2018

Thou shall not work with
artificial cases, but with
real-life challenges

Working with Europe 2018

Thou shall not “learn” when
scheduled, but when you need
it and can use it in practice

Working with Europe 2018

Thou shall not ask what is the
meaning of the “learning”, but
embrace important missions
in society

Working with Europe 2018

Thou shall not be driven by
abstract reasoning, but by
your personal interests,
talents and aspirations

Working with Europe 2018

Thou shall not be scaffolding
abstract knowledge, but
empowering your agency

Working with Europe 2018

Thou shall not be imprisoned
by “school”, but take action in
the physical, social and virtual
worlds

Working with Europe 2018

Thou shall not be bored by old subjects, but allowed to immerse deeply in long-term missions

Working with Europe 2018

Thou shall not simply learn
“because” ..., but through
creating something useful for
yourself and your communities

Working with Europe 2018

Thou shall not anymore be half
asleep in the classroom, but
work hard to empower yourself
for change and innovation

Working with Europe 2018

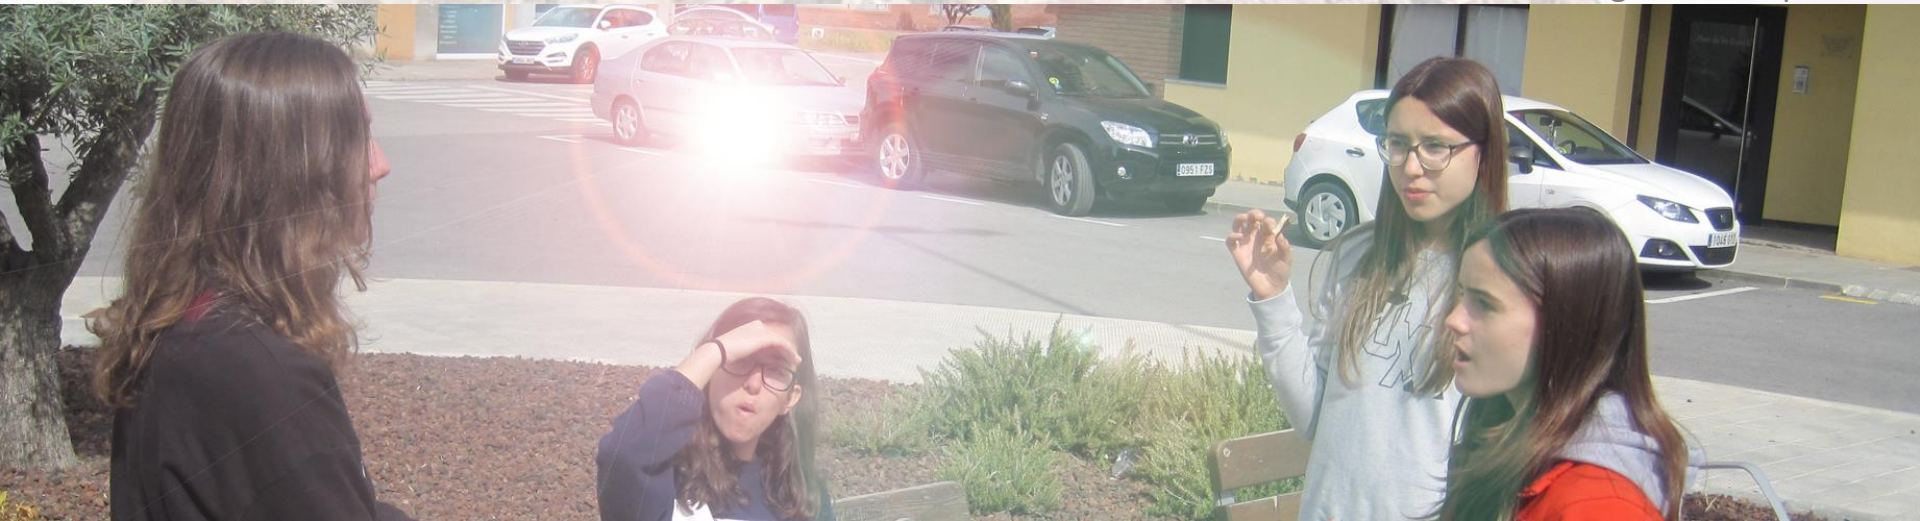

Thou shall not simply “survive-learn”, but strive to create real outcomes and results

Working with Europe 2018

Thou shall no longer learn for
yourself, but for your team
and for your communities

Working with Europe 2018

Thou shall not be taught by a
teacher, but guided by
teachers and community
professionals as critical friends

Working with Europe 2018

Thou shall not use technology
because it is fashion, but
because it helps you
accomplish your missions

Working with Europe 2018

Thou shall not limit yourself to
mainstream technology, but
master and form technology
to support your projects

Working with Europe 2018

Thou shall not any longer look
at the real world through
books, but build agency to
impact and change it

Working with Europe 2018

Thou shall not be considered
too young to act in the real
world, but a person full of
initiative, ideas and resources

Working with Europe 2018

Thou shall not be stressed by
external demands, but build
self-confidence through what
your team accomplishes

Working with Europe 2018

... then you will be ready to
learn, act and live in the 21st
century...
