Working with Europe new services 2018-20

## INNOVATION THROUGH ERASMUS+ PARTICIPATION

Application production

Project support

Erasmus+ training

Free Erasmus+  
inspiration workshops

*Working with Europe* has for many years produced high quality applications for coordinators and partners from across Europe. A high number of organisations have benefitted from this activity and more will benefit in the future.

However, *Working with Europe* needs to reduce total annual traveling to partner meetings and other transnational project events.

Therefore *Working with Europe* will in the Erasmus+ period 2018-20 participate directly in fewer projects - but at the same time add new services to our partners from across Europe.

The new European services are:

## PRODUCTION OF APPLICATIONS

Very many organisations from across Europe - from big educations to small NGO's - wish to participate in European collaboration and receive European funding. - But, they don't feel able...

*Working with Europe* offers training courses for staff members interested in building capacity to participate in European collaboration - tailor-made in each special case.

The training will be designed in collaboration with you, but might include: application production, creation of innovation, project management and financial management - all linked to Erasmus+ projects.

The training activity price will be based on non-profit real-costs and will be agreed in each case. The training can be a combination of on location and virtual.

*Working with Europe* offers to produce Erasmus+ applications for partners and coordinators - without participating in the projects.

The production of Erasmus+ applications includes all major application tasks: concept, content writing, partnership creation and budgeting.

The service is extremely fair and non-profit priced:

- 3500 euro for the application production

- another 1500 euro in case the application is granted

The application work should start at least 3 months before the deadlines in March 2019 or 2020.

## ERASMUS+ TRAINING

Without participating directly in a project as a partner, *Working with Europe* can offer support to the implementation of the project, including to the various parts of this implementation.

Such support can take place in flexible ways, based on the needs of the project or of the coordinator.

The price will be based on non-profit direct costs and will be negotiated in each specific case.

Project support can be financed by the coordinator or by the partnership at large.

## PROJECT SUPPORT

A very high number of institutions from all societal sectors and from all member states are interested in participating in European collaboration in different ways.

- However, everything seems complicated...

Most of these organisations never really get closer to European collaboration...

*Working with Europe* offers free of charge workshops for organisations interested in Europe collaboration - but still hesitating and not really knowing how to get started...

The workshops are free of charge and do not include further obligations. However, traveling and accomodation costs must be covered in case of workshops outside Catalonia and Denmark.
